

FLORIDA INTERNATIONAL UNIVERSITY
BIOMEDICAL AND
COMPARATIVE IMMUNOLOGY
SYMPOSIUM

BIOLOGICAL DIVERSITY:
Cellular and Molecular Interactions
March 1st and 2nd, 2012
FIU—Modesto Maidique Campus
Miami, Florida 33199

On behalf of the symposium organizing committee, we would like to invite you to participate in the 14th Biomedical and Comparative Immunology Symposium at FIU. This annual symposium will address recent advances in our understanding of diverse biological systems and phenomena. It will focus on cellular and molecular mechanisms of fundamental processes that govern organismal development, reproduction, cellular differentiation, disease, growth and survival. Biologists and biomedical scientists working with a variety of vertebrate (including human and other mammals) and invertebrate organisms will find the plenary and other presentations informative and stimulating. Please share this invitation with your colleagues and students.

Charles H. Bigger, Ph.D. (biggerc@fiu.edu) Chairperson, Symposium Organizing Committee

Plenary Speakers

Dr. Thomas C. G. Bosch— Professor of Zoology & Director of Zoological Institute, Christian-Albrechts-University Kiel, Germany

Dr. Tomas Ganz—Professor of Medicine & Pathology, Department of Medicine, David Geffen School of Medicine, UCLA

Dr. Katherine Knight—Professor, Department of Microbiology and Immunology, Loyola University Health System, Stritch School of Medicine

Dr. Coen M. Adema—Associate Professor, Center for Evolutionary and Theoretical Immunology, University of New Mexico

<http://fiubci2012.eventbrite.com>

Open to all FIU students

Partially Funded by CSO
