The tsunami of 2004 is still very present in the minds of many people, even though it has already been adapted into a movie called "The Impossible". "It is not only about the drama and movie and made a movie out of it - it is also important to learn from it," says Xiaoyu Xiang and Chi Ywig Young, who is studying for his Master in Electrical Engineering, wants to join the International Center's sailing program. "I liked this a lot. It is a great way to relax," Xiaoyu Xiang says. On the whole, the event has been a success and the crew and participants are glad that the International Center offers this opportunity - a great thing for a University student."
